

I have always been very ambitious to achieve financial freedom. Even when I was young and at school, I had little money-making ventures 'on the side'.

I started working in my own business at the age of 18 and built two very successful businesses over the next 20 years. I bought my first investment property and my first Mercedes at the age of 20.

Not only have I achieved a high degree of financial freedom, I am more excited about life than ever before. I am a single dad with two boys.

During these years I appeared to be successful....but I was paying a huge price. I worked seven days and six nights a week; I was under huge financial pressure and I gradually became unhealthy. At 39 I made a few disastrous business decisions and I went bankrupt. My personal life was a mess and my health further deteriorated.

The most gratifying thing for me is that I have the freedom that very few men ever enjoy; the freedom to spend quality time with my boys. We enjoy life together, we travel the world and we attract incredible friendships constantly. My friends whom I recruited into Herbalife have become wealthy, and I have built a financial wall around me and my kids which is virtually impenetrable.

I was lucky to come across a friend, Rodney Drory, who encouraged me to try the Herbalife products. Not only did I lose weight in the first 30 days but I also noticed an increase in my energy levels. A few of my friends saw my results and they started using the products too. Andrea Williams suggested I should look at Herbalife to re-group my financial situation.

I sometimes wonder where I'd be today if it wasn't for Rodney Drory and Herbalife.

If someone told me that what has happened would have happened, I would never have believed them. I started earning income immediately, and I started enjoying my life as well. I attended all the meetings and training schools, I worked hard and I qualified for everything that Herbalife placed in front of me.
